FISCAL ANALYSIS

ASSUMPTION

Officials from the **Platte County Board of Election Commissioners** assume there would be costs for an election for any county conducting an election. Costs per election would range from \$50,000 to \$60,000, depending upon the number of other participants involved in any specific election, as costs would be pro-rated based upon the number of registered voters within each district.

According to officials from the **Kansas City Election Board (KCEB)**, the cost to conduct a city-wide general municipal election can range up to \$350,000 depending on the number of entities participating and the number of registered voters in each jurisdiction requesting the election. The KCEB would need more information about the size and locations of these "districts" before they could give a more accurate estimate of these costs.

Oversight assumes this proposal is discretionary and would have no local fiscal impact without action by the governing body.

Officials from the **Department of Higher Education, Department of Revenue, Office of Administration - Division of Budget and Planning, State Tax Commission, Office of State Courts Administrator, Office of Secretary of State - Elections Division, St. Louis County,** and the **University of Missouri** each assume the proposal would not fiscally impact their respective agencies.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
